INTRODUCTION	1
METHODS	1
SAMPLING, WEIGHTING, AND ANALYSIS	1
PERMISSION STATUS AND RESPONSE RATES	2
RESULTS	3
PARTICIPANT CHARACTERISTICS	3
Table 1: Demographic characteristics of participating students	3
Table 2: Percentage of high school students who had parents or other adults in their home serving on active duty in the military.....	4
Table 3: Percentage of high school students who qualified for or received free or reduced price lunches at school.....	5
Table 4: Percentage of high school students who have been arrested or cited by the police or a school police officer in their life	6
Table 5: Percentage of high school students who identified as heterosexual (straight), gay or lesbian, bisexual, some other identity, or questioning identity	7
Table 6: Percentage of high school students who identified as transgender.....	8
HOUSEHOLD/COMMUNITY ADVERSE CHILDHOOD EXPERIENCES	9
Table 7: Percentage of high school students who have ever been hit, beaten, kicked, or physically hurt in any way by a parent or other adult in their home	9
Table 8: Percentage of students who reported that an adult or person at least 5 years older than them made them do sexual things they did not want to do.....	10
Table 9: Percentage of high school students who have ever been insulted or put down by a parent or other adult in their home	11
Table 10: Percentage of high school students who have ever had parents or other adults in their home slap, hit, kick, punch, or beat each other up.....	12
Table 11: Percentage of high school students who have ever lived with a parent or guardian who had severe depression, anxiety, or another mental illness, or was suicidal	13
Table 12: Percentage of high school students who have ever lived with a parent or guardian who was having a problem with alcohol or drug use	14
Table 13: Percentage of high school students who have ever been separated from a parent or guardian because their parent/guardian went to jail, prison, or a detention center	15
Table 14: Percentage of high school who were sometimes/most of the time/always food insecure during the 12 months before the survey.....	16
Table 15: Percentage of high school students who experienced housing insecurity during the 12 months before the survey	17
Table 16: Percentage of high school students who have ever seen someone get physically attacked, beaten, stabbed, or shot in their neighborhood	18
SCHOOL/PEER ADVERSE CHILDHOOD EXPERIENCES	19
Table 17: Percentage of high school students who were threatened or injured by someone with a weapon on school property during the 12 months before the survey	19

Table 18: Percentage of high school students who threatened or injured someone with a weapon on school property during the 12 months before the survey 20

Table 19: Percentage of high school students who were in a physical fight on school property during the 12 months before the survey 21

Table 20: Percentage of high school students who were bullied on school property during the 12 months before the survey 22

Table 21: Percentage of high school students who were electronically bullied during the 12 months before the survey 23

Table 22: Percentage of high school students who did not go to school because they felt unsafe at school or on their way to or from school during the 30 days before the survey..... 24

Table 23: Percentage of high school students who experienced physical dating violence during the 12 months before the survey 25

Table 24: Percentage of high school students who experienced sexual dating violence during the 12 months before the survey 26

POSITIVE CHILDHOOD EXPERIENCES..... 27

Table 25: Percentage of high school students who felt they were able to talk to an adult in their family or another caring adult about their feelings 27

Table 26: Percentage of high school students who felt they were able to talk to were able to talk to a friend about their feelings..... 28

Table 27: Percentage of high school students who felt close to people at their school 29

Table 28: Percentage of high school students who have at least one teacher or other adult in their school that they can talk to if they have a problem 30

Table 29: Percentage of high school students who felt safe and protected by an adult in their home..... 31

Table 30: Percentage of high school students who felt safe and secure in their neighborhood 32

Table 31: Percentage of high school students who took part in organized after school, evening, or weekend activities during the past 12 months 33

EMOTIONAL HEALTH..... 34

Table 32: Percentage of high school students who felt sad or hopeless almost every day for two or more weeks in a row during the 12 months before the survey 34

Table 33: Percentage of high school students who seriously considered attempting suicide during the 12 months before the survey 35

Table 34: Percentage of high school students who made a plan about how they would attempt suicide during the 12 months before the survey..... 36

Table 35: Percentage of high school students who attempted suicide during the 12 months before the survey 37

Table 36: Percentage of high school students whose suicide attempt resulted in an injury, poisoning, or overdose that had to be treated by a doctor or nurse during the 12 months before the survey 38

Table 37: Percentage of high school students who did something to purposely hurt themselves without wanting to die, such as cutting or burning themselves on purpose during the 12 months before the survey 39

Table 38: Percentage of high school students who never/rarely got the kind of help they needed when they felt sad, empty, hopeless, angry, or anxious during the 12 months before the survey 40

ELECTRONIC VAPOR PRODUCT USE 41

Table 39: Percentage of high school students who ever used electronic vapor products 41

Table 40: Percentage of high school students who tried electronic vapor products for the first time before age 13 years 42

Table 41: Percentage of high school students who used electronic vapor products during the 30 days before the survey 43

Table 42: Percentage of high school students who used electronic vapor products on 20 or more days during the 30 days before the survey 44

Table 43: Percentage of high school students who used an electronic vapor product to vape marijuana during the 30 days before the survey 45

Table 44: Percentage of high school students who used an electronic vapor product to vape nicotine during the 30 days before the survey 46

Table 45: Percentage of high school students who usually obtained their own electronic vapor products by various means during the 30 days before the survey 47

Table 46: Percentage of high school students who thought it would be difficult or easy to get electronic vapor products if they wanted some 48

TOBACCO USE 49

Table 47: Percentage of high school students who ever smoked cigarettes 49

Table 48: Percentage of high school students who smoked cigarettes for the first time before age 13 years..... 50

Table 49: Percentage of high school students who smoked cigarettes during the 30 days before the survey 51

Table 50: Percentage of high school students who smoked cigarettes on 20 or more days during the 30 days before the survey..... 52

Table 51: Percentage of high school students who usually obtained their own cigarettes by buying them in a store or gas station during the 30 days before the survey..... 53

Table 52: Percentage of high school students who thought it would be difficult or easy to get cigarettes if they wanted some 54

Table 53: Percentage of high school students who used smokeless tobacco during the 30 days before the survey 55

ALCOHOL USE 56

Table 54: Percentage of high school students who ever drank alcohol..... 56

Table 55: Percentage of high school students who drank alcohol for the first time before age 13 years 57

Table 56: Percentage of high school students who had at least one drink of alcohol during the 30 days before the survey 58

Table 57: Percentage of high school students who had at least one drink of alcohol on 20 or more days during the 30 days before the survey 59

Table 58: Percentage of high school students who participated in binge drinking during the 30 days before the survey 60

Table 59: Percentage of high school students who usually got the alcohol they drank by various means during the 30 days before the survey 61

Table 60: Percentage of high school students who thought it would be difficult or easy to get alcohol if they wanted some..... 62

Table 61: Percentage of students who rode with a driver who had been drinking alcohol during the 30 days before the survey 63

NON-MEDICAL PRESCRIPTION PAIN MEDICINE USE 73

Table 71: Percentage of high school students who ever took prescription pain medicine without a doctor’s prescription or differently than how a doctor told them to use it..... 73

Table 72: Percentage of high school students who took prescription pain medicine without a doctor’s prescription or differently than how a doctor told them to use it during the 30 days before the survey 74

Table 73: Percentage of high school students who took prescription pain medicine without a doctor’s prescription or differently than how a doctor told them to use it 20 or more times during the 30 days before the survey 75

Table 74: Percentage of high school students who thought it would be difficult or easy to get prescription pain medicine if they wanted some 76

OTHER DRUG USE..... 77

Table 75: Percentage of high school students who ever used cocaine 77

Table 76: Percentage of high school students who ever used heroin 78

Table 77: Percentage of high school students who ever used methamphetamines 79

Table 78: Percentage of high school students who ever used ecstasy 80

Table 79: Percentage of high school students who ever injected any illegal drugs. 81

SUBSTANCE USE – PERCEPTION OF RISK 82

Table 80: Percentage of high school students who reported that they think people risk harming themselves physically or in other ways when they have five or more drinks of an alcoholic beverage once or twice a week..... 82

Table 81: Percentage of high school students who reported that they think people risk harming themselves physically or in other ways if they smoke one or more packs of cigarettes per day 83

Table 82: Percentage of high school students who reported that they think people risk harming themselves physically or in other ways if they smoke marijuana once or twice a week..... 84

Table 83: Percentage of high school students who reported that they think people risk harming themselves physically or in other ways if they use prescription drugs that are not prescribed to them 85

SUBSTANCE USE – PERCEPTION OF PARENT DISAPPROVAL 86

Table 84: Percentage of high school students who reported that their parents feel it would be wrong for them to have one or two drinks of an alcoholic beverage nearly every day..... 86

Table 85: Percentage of high school students who reported that their parents feel it would be wrong for them to smoke tobacco 87

Table 86: Percentage of high school students who reported that their parents feel it would be wrong for them to smoke marijuana..... 88

Table 87: Percentage of high school students who reported that their parents feel it would be wrong for them to use prescription drugs not prescribed to them 89

SUBSTANCE USE – PERCEPTION OF PEER DISAPPROVAL..... 90

Table 88: Percentage of high school students who reported that their friends feel it would be wrong for them to have one or two drinks of an alcoholic beverage nearly every day..... 90

Table 89: Percentage of high school students who reported that their friends feel it would be wrong for them to smoke tobacco 91

Table 90: Percentage of high school students who reported that their friends feel it would be wrong for them to smoke marijuana..... 92

Table 91: Percentage of high school students who reported that their friends feel it would be wrong for them to use prescription drugs not prescribed to them 93

SEXUAL BEHAVIORS 94

Table 92: Percentage of high school students who ever had sexual intercourse 94

Table 93: Percentage of high school students who had sexual intercourse for the first time before age 13 years..... 95

Table 94: Percentage of high school students who had sexual intercourse with four or more persons during their life..... 96

Table 95: Percentage of high school students who had sexual intercourse with at least one person during the 3 months before the survey..... 97

Table 96: Percentage of high school students who drank alcohol or used drugs before last sexual intercourse 98

Table 97: Percentage of high school students who used a condom during last sexual intercourse 99

Table 98: Percentage of high school students who used birth control pills before last sexual intercourse 100

Table 99: Percentage of high school students who used an IUD, implant, a shot, patch, or birth control ring before last sexual intercourse 101

Table 100: Percentage of high school students who used birth control pills, an IUD, implant, a shot, patch, or birth control ring before last sexual intercourse 102

Table 101: Percentage of high school students who used both a condom and birth control pills, an IUD, implant, a shot, patch, or birth control ring before last sexual intercourse 103

Table 102: Percentage of high school students who did not use any method to prevent pregnancy during last sexual intercourse 104

Table 103: Percentage of high school students who have ever been pregnant or gotten someone pregnant 105

Table 104: Percentage of high school students who did not have sexual contact, who had sexual contact with the opposite sex, and who had sexual contact with the same or both sexes 106

DIET 107

Table 105: Percentage of high school students who did not eat fruit during the 7 days before the survey 107

Table 106: Percentage of high school students who ate fruit one or more times/day during the 7 days before the survey 108

Table 107: Percentage of high school students who ate fruit two or more times/day during the 7 days before the survey 109

Table 108: Percentage of high school students who ate fruit three or more times/day during the 7 days before the survey 110

Table 127: Percentage of high school students who have attention-deficit/hyperactivity disorder or ADHD, also called attention deficit disorder or ADD 129

INTRODUCTION

Priority health risk behaviors (i.e. preventable behaviors that contribute to the leading causes of morbidity and mortality) are often established during childhood and adolescence and extend into adulthood. Ongoing surveillance of youth risk behaviors is critical for the design, implementation, and evaluation of public health interventions to improve adolescent health. The Youth Risk Behavior Survey (YRBS) is a national surveillance system that was established in 1991 by the Centers for Disease Control and Prevention (CDC) to monitor the prevalence of health risk behaviors among youth. The Nevada High School YRBS is a biennial, anonymous, and voluntary survey of students in 9th through 12th grade in regular public, charter, and alternative schools. Students self-report their behaviors in six major areas of health that directly lead to morbidity and mortality; these include:

- 1) Behaviors that contribute to unintentional injuries and violence;
- 2) Sexual behaviors that contribute to human immunodeficiency virus (HIV) infection, other sexually transmitted diseases, and unintended pregnancy;
- 3) Tobacco use;
- 4) Alcohol and other drug use;
- 5) Unhealthy dietary behaviors; and
- 6) Physical inactivity.

In 2025, 34 high schools were randomly chosen by the CDC to represent Nevada. To ensure greater representation from schools in all districts, the Nevada Division of Public and Behavioral Health contracted with the University of Nevada, Reno School of Public Health to conduct the YRBS in all high schools throughout the state. The 2025 Nevada High School YRBS provides statewide data to assess priority health-risk behaviors among high school students, measures progress toward achieving national health objectives for *Healthy People 2030* and other program and policy indicators, and evaluates the impact of school and community interventions at the national, state, and local level. It is our intention that these data will be used by education and health professionals, policy makers, community members, and researchers to improve the health of Nevada's high school students. **This report focuses on 2025 YRBS data from Clark County High Schools (49 High Schools and 2,239 students).**

METHODS

Sampling, Weighting, and Analysis

The 2025 Nevada YRBS sampling plan was designed to ensure that every eligible student had an equal chance of selection. A random cluster sample design was used to produce a representative sample of students in grades 9–12 (from all Nevada regular public, charter, and alternative high schools). In order to provide regional data that represent all counties in the state, all 17 school districts were grouped into 8 regions that generally reflect the Nevada Statewide Coalition Partnership. The regional grouping also helped ensure that individual schools could not be identified. Next, classes were

randomly selected within every school with the probability based on a required margin of error in the sample size for each region. Intact classes of either all second period or all required English courses were randomly selected from each school. The questionnaire was administered to all students in sampled classes from February 2025 to June 2025.

The 2025 Nevada YRBS data in this report were weighted based on the sex, race/ethnicity, and grade level of students in each region. The weighting process ensured that the estimates accurately represent the entire student population in each region and the state as a whole. Non-response or poor sampling procedures can result in a sample that is not a representative subset of the population; therefore, un-weighted results from these samples may not accurately reflect student behaviors and could be misleading. This report only displays weighted results.

Permission Status and Response Rates

The Nevada legislature passed SB69, which requires Nevada public, charter, and alternative secondary schools to participate in the Nevada YRBS. SB69 also requires passive parental permission for YRBS participation. Passive parental permission means the students take a permission form home and return it only if their parent or guardian does not want them to participate in the survey. In 2025, Clark County had an overall response rate (a combination of school and student response rates) of 67.6%.

RESULTS

Participant Characteristics

Table 1: Demographic characteristics of participating students — Nevada YRBS 2025

		Student Participants ^a	Unweighted %	Weighted %
