

2017 Nevada High School Youth Risk Behavior Survey (YRBS): Clark County Special Report

Contents

INTRODUCTION	1
METHODS	1
PERMISSION STATUS AND RESPONSE RATES	2
RESULTS	3
PARTICIPANT CHARACTERISTICS	3
Table 1: Demographic characteristics of participating students	3
Table 2: Percentage of high school students who had parents or other adults in the home serving on active duty in the military.....	4
Table 3: Percentage of high school students who qualified for or received free and reduced lunch at school	5
Table 4: Percentage of high school students who made mostly A's or B's in school during the 12 months before the survey	6
Table 5: Percentage of high school students whose parents or other adults asked where they were going or who they would be with	7
SAFETY	8
Table 6: Percentage of high school students who rarely or never wore a seat belt when riding in a car driven by someone else	8
Table 7: Percentage of high school students who texted or e-mailed while driving a car or other vehicle on at least one day during the 30 days before the survey	9
VIOLENCE-RELATED BEHAVIORS	10
Table 8: Percentage of high school students who carried a weapon on school property during the 30 days before the survey	10
Table 9: Percentage of high school students who were threatened or injured with a weapon on school property during the 12 months before the survey	11
Table 10: Percentage of high school students who were in a physical fight during the 12 months before the survey	12
Table 11: Percentage of high school students who were in a physical fight on school property during the 12 months before the survey	13
Table 12: Percentage of high school students who were bullied on school property during the 12 months before the survey	14
Table 13: Percentage of high school students who were electronically bullied during the 12 months before the survey	15
Table 14: Percentage of high school students who did not go to school because they felt unsafe at school or on their way to or from school during the 30 days before the survey.....	16
Table 15: Percentage of high school students who were forced to do sexual things when they did not want to during the 12 months before the survey	17
Table 16: Percentage of high school students who experienced physical dating violence during the 12 months before the survey	18
Table 17: Percentage of high school students who experienced sexual dating violence during the 12 months before the survey	19
Table 18: Percentage of high school students who were ever physically forced to have sexual intercourse when they did not want to	20

Table 19: Percentage of high school students who have ever been hit, beaten, kicked, or physically hurt in any way by an adult	21
Table 20: Percentage of high school students who have ever been sworn at, insulted by, or put down by an adult	22
Table 21: Percentage of high school students who have ever seen adults in their home slap, hit, kick, punch, or beat each other up	23
EMOTIONAL HEALTH.....	24
Table 22: Percentage of high school students who felt sad or hopeless almost every day for two or more weeks in a row during the 12 months before the survey	24
Table 23: Percentage of high school students who seriously considered attempting suicide during the 12 months before the survey	25
Table 24: Percentage of high school students who made a plan about how they would attempt suicide during the 12 months before the survey	26
Table 25: Percentage of high school students who attempted suicide during the 12 months before the survey	27
Table 26: Percentage of high school students whose suicide attempt resulted in an injury, poisoning, or overdose that had to be treated by a doctor or nurse during the 12 months before the survey	28
Table 27: Percentage of high school students who did something to purposely hurt themselves without wanting to die, such as cutting or burning themselves on purpose during the 12 months before the survey	29
Table 28: Percentage of high school students who ever lived with someone who was depressed, mentally ill, or suicidal	30
Table 29: Percentage of high school students who ever got the kind of help they need when they felt sad, empty, hopeless, angry, or anxious	31
TOBACCO USE	32
Table 30: Percentage of high school students who ever smoked cigarettes	32
Table 31: Percentage of high school students who smoked cigarettes for the first time before age 13 years.....	33
Table 32: Percentage of high school students who smoked cigarettes during the 30 days before the survey	34
Table 33: Percentage of high school students who smoked cigarettes on 20 or more days during the 30 days before the survey.....	35
Table 34: Percentage of high school students who smoked more than 10 cigarettes per day during the 30 days before the survey	36
Table 35: Percentage of high school students who usually obtained their own cigarettes by buying them in a store or gas station during the 30 days before the survey.....	37
Table 36: Percentage of high school students who used smokeless tobacco during the 30 days before the survey	38
Table 37: Percentage of high school students who smoked cigars during the 30 days before the survey	39
Table 38: Percentage of high school students who used tobacco during the 30 days before the survey.....	40

ELECTRONIC VAPOR PRODUCT USE	41
Table 39: Percentage of high school students who ever used electronic vapor products	41
Table 40: Percentage of high school students who used electronic vapor products during the 30 days before the survey	42
Table 41: Percentage of high school students who tried electronic vapor products for the first time before age 13 years	43
Table 42: Percentage of high school students who usually obtained their electronic vapor products by buying them in a store or gas station during the 30 days before the survey.....	44
ALCOHOL USE	45
Table 43: Percentage of high school students who ever drank alcohol.....	45
Table 44: Percentage of high school students who drank alcohol for the first time before age 13 years	46
Table 45: Percentage of high school students who had at least one drink of alcohol during the 30 days before the survey	47
Table 46: Percentage of high school students who participated in binge drinking during the 30 days before the survey	48
Table 47: Percentage of high school students who drank 10 or more drinks in a row during the 30 days before the survey	49
Table 48: Percentage of high school students who usually obtained the alcohol they drank by someone giving it to them during the 30 days before the survey.....	50
Table 49: Percentage of high school students who rode in a car or other vehicle during the 30 days before the survey driven by someone who had been drinking alcohol.....	51
Table 50: Percentage of high school students who drove a car or other vehicle during the 30 days before the survey when they had been drinking alcohol	52
MARIJUANA USE	53
Table 51: Percentage of high school students who ever used marijuana.....	53
Table 52: Percentage of high school students who tried marijuana for the first time before age 13 years	54
Table 53: Percentage of high school students who used marijuana during the 30 days before the survey	55
Table 54: Percentage of high school students who usually used marijuana by different methods during the past 30 days before the survey	56
Table 55: Percentage of high school students who rode in a car or other vehicle during 30 days before the survey driven by someone who had been using marijuana	57
Table 56: Percentage of high school students who drove a car or other vehicle during the 30 days before the survey when they had been using marijuana.....	58
OTHER DRUG USE.....	59
Table 57: Percentage of high school students who ever used cocaine	59
Table 58: Percentage of high school students who ever used inhalants	60
Table 59: Percentage of high school students who ever used heroin	61
Table 60: Percentage of high school students who ever used methamphetamines	62
Table 61: Percentage of high school students who used ecstasy	63

Table 62: Percentage of high school students who ever used synthetic marijuana	64
Table 63: Percentage of high school students who ever took steroids without a doctor's prescription	65
Table 64: Percentage of high school students who ever took prescription pain medicine without a doctor's prescription	66
Table 65: Percentage of high school students who currently take prescription pain medicine without a doctor's prescription	67
Table 66: Percentage of high school students who ever injected any illegal drugs	68
Table 67: Percentage of high school students who were offered, sold, or given an illegal drug by someone on school property during the 12 months before the survey	69
Table 68: Percentage of high school students who attended school under the influence of alcohol or other illegal drugs during the 12 months before the survey	70
Table 69: Percentage of high school students who ever lived with someone who was a problem drinker, alcoholic, or abused street or prescription drugs	71
SEXUAL BEHAVIORS	72
Table 70: Percentage of high school students who ever had sexual intercourse	72
Table 71: Percentage of high school students who had sexual intercourse for the first time before age 13 years	73
Table 72: Percentage of high school students who had sexual intercourse with four or more persons during their life	74
Table 73: Percentage of high school students who had sexual intercourse with at least one person during the 3 months before the survey	75
Table 74: Percentage of high school students who drank alcohol or used drugs before last sexual intercourse	76
Table 75: Percentage of high school students who used a condom during last sexual intercourse	77
Table 76: Percentage of high school students who used birth control pills before last sexual intercourse	78
Table 77: Percentage of high school students who used Depo-Provera, Nuva Ring, Ortho Evra, Implanon, or any IUD before last sexual intercourse	79
Table 78: Percentage of high school students who used birth control pills, Depo-Provera, Nuva Ring, Implanon, or any IUD before last sexual intercourse	80
Table 79: Percentage of high school students who used both a condom and birth control pills, Depo-Provera, Nuva Ring, Implanon, or any IUD before last sexual intercourse	81
Table 80: Percentage of high school students who did not use any method to prevent pregnancy during last sexual intercourse	82
Table 81: Percentage of high school students who have ever been pregnant or gotten someone pregnant	83
Table 82: Percentage of high school students did not have sexual contact, who had sexual contact with the opposite sex, and who had sexual contact with the same or both sexes	84
Table 83: Percentage of high school students who were heterosexual (straight), gay or lesbian, bisexual, or not sure	85
Table 84: Percentage of high school students who have ever been tested for HIV	86

DIET	87
Table 85: Percentage of high school students who did not eat fruit or drink 100% fruit juices during the 7 days before the survey	87
Table 86: Percentage of high school students who ate fruit or drank 100% fruit juices one or more times/day during the 7 days before the survey	88
Table 87: Percentage of high school students who ate fruit or drank 100% fruit juices two or more times/day during the 7 days before the survey	89
Table 88: Percentage of high school students who ate fruit or drank 100% fruit juices three or more times/day during the 7 days before the survey	90
Table 89: Percentage of high school students who did not eat vegetables during the 7 days before the survey	91
Table 90: Percentage of high school students who ate vegetables one or more times/day during the 7 days before the survey	92
Table 91: Percentage of high school students who ate vegetables two or more times/day during the 7 days before the survey	93
Table 92: Percentage of high school students who ate vegetables three or more times/day during the 7 days before the survey	94
Table 93: Percentage of high school students who did not drink milk during the 7 days before the survey	95
Table 94: Percentage of high school students who drank one or more glasses/day of milk during the 7 days before the survey	96
Table 95: Percentage of high school students who drank two or more glasses/day of milk during the 7 days before the survey	97
Table 96: Percentage of high school students who drank three or more glasses/day of milk during the 7 days before the survey	98
Table 97: Percentage of high school students who did not drink soda or pop during the 7 days before the survey	99
Table 98: Percentage of high school students who drank soda or pop one or more times/day during the 7 days before the survey	100
Table 99: Percentage of high school students who drank soda or pop two or more times/day during the 7 days before the survey	101
Table 100: Percentage of high school students who drank soda or pop three or more times/day during the 7 days before the survey	102
Table 101: Percentage of high school students who did not eat breakfast during the 7 days before the survey	103
Table 102: Percentage of high school students who ate breakfast all 7 days before the survey	104
Table 103: Percentage of high school students who go hungry because there is not enough food in the house during the 30 days before the survey	105
Table 104: Percentage of high school students who visited a dentist during the 12 months before the survey	106
PHYSICAL ACTIVITY	107
Table 105: Percentage of high school students who did not participate in at least 60 minutes of physical activity on any day during the 7 days before the survey	107
Table 106: Percentage of high school students who were physically active at least 60 minutes/day on 5 or more days during the 7 days before the survey	108

Table 107: Percentage of high school students who were physically active at least 60 minutes/day on all 7 days before the survey	109
Table 108: Percentage of high school students who played video or computer games, watched TV, or used a computer for 3 or more hours per day	110
Table 109: Percentage of high school students who attended physical education (PE) classes	111
Table 110: Percentage of high school students who attended physical education (PE) classes daily	112
Table 111: Percentage of high school students who played on at least one sports team run by their school or community groups during the 12 months before the survey.....	113
Table 112: Percentage of high school students who have had a concussion from playing a sport or being physically active during the 12 months before the survey	114
Table 113: Percentage of high school students who had 8 or more hours of sleep on an average school night	115
WEIGHT	116
Table 114: Percentage of high school students who were obese	116
Table 115: Percentage of high school students who were overweight.....	117

INTRODUCTION

Priority health risk behaviors (i.e. preventable behaviors that contribute to the leading causes of morbidity and mortality) are often established during childhood and adolescence and extend into adulthood. Ongoing surveillance of youth risk behaviors is critical for the design, implementation, and evaluation of public health interventions to improve adolescent health. The Youth Risk Behavior Survey (YRBS) is a national surveillance system that was established in 1991 by the Centers for Disease Control and Prevention (CDC) to monitor the prevalence of health risk behaviors among youth. The Nevada High School YRBS is a biennial, anonymous, and voluntary survey of students in 9th through 12th grade in regular public, charter, and alternative schools. Students self-report their behaviors in six major areas of health that directly lead to morbidity and mortality, these include:

- 1) Behaviors that contribute to unintentional injuries and violence;
- 2) Sexual behaviors that contribute to human immunodeficiency virus (HIV) infection, other sexually transmitted diseases, and unintended pregnancy;
- 3) Tobacco use;
- 4) Alcohol and other drug use;
- 5) Unhealthy dietary behaviors; and
- 6) Physical inactivity.

The 2017 Nevada High School YRBS provides statewide data to assess priority health-risk behaviors among high school students; measure progress toward achieving national health objectives for *Healthy People 2020* and other program and policy indicators; and evaluate the impact of school and community interventions at the national, state, and local level. It is our intention that these data will be used by education and health professionals, policy makers, community members, and researchers to improve the health of Nevada's high school students. **This report focuses on 2017 YRBS data from Clark County High Schools (49 High Schools and 2,019 students).**

METHODS

Sampling, Weighting, and Analysis

The 2017 Nevada YRBS sampling plan was designed to ensure that every eligible student had an equal chance of selection. A two-stage (region and classroom) random cluster sample design was used to produce a representative sample of students in grades 9–12 (all Nevada regular public, charter, and alternative high schools). In order to provide regional data that represent all counties in the state, the first sampling stage grouped all 17 school districts into 8 regions that generally reflect the prevention coalition structure. The regional grouping also helped ensure that individual schools could not be identified. In the second sampling stage, classes were selected within schools with the probability based on a required margin of error in the sample size for each region. Intact classes of either all second period or all required English courses were randomly selected from each school. The questionnaire was administered to all students in sampled classes from February to May, 2017.

The 2017 Nevada YRBS data were weighted based on the sex, race/ethnicity, and grade level of students in each region. The weighting process ensured that the estimates accurately represent the entire student population in each region and the state as a whole. Non-response or poor sampling procedures can result in a sample that is not a representative subset of the population; therefore un-weighted results from these samples may not accurately reflect student behaviors and could be misleading. This report only displays weighted results.

Permission Status and Response Rates

Parental permission is required for YRBS participation. Nevada school districts have two forms of parental permission: 1) active and 2) passive. *Active parental permission* means the students must return a signed permission form indicating their parent or guardian's approval for participation in the survey. *Passive parental permission* means the students take a permission form home and return it only if their parent or guardian does not want them to participate in the survey. The type of permission status varies by district based on school district policy. Active permission requires more time and resources and may reduce the number of students that participate in the survey. In 2017, Clark County used active parental permission and had an overall response rate (a combination of school and student response rate) of 61.1%.

RESULTS

Participant Characteristics

Table 1: Demographic characteristics of participating students — Clark County, Youth Risk Behavior Survey, 2017

		Student Participants ^a	Unweighted %	Weighted %
Total		2019	100.00%	100.00%
Sex	Female	1006	50.15%	48.38%
	Male	1000	49.85%	51.62%
Age Groups	14 years old or younger	312	15.48%	13.68%
	15 years old	499	24.76%	24.15%
	16 years old	486	24.12%	25.52%
	17 years old	502	24.91%	25.79%
	18 years old or older	216	10.72%	10.86%
Grade	9th grade	575	28.81%	25.43%
	10th grade	479	24.00%	25.63%
	11th grade	463	23.20%	24.74%
	12th grade	475	23.80%	24.06%
	Ungraded or other grade	4	0.20%	0.15%
Race/Ethnicity	American Indian/Alaska Native^d	12	0.60%	0.45%
	Asian^d	158	7.96%	7.78%
	Black^d	168	8.46%	13.54%
	Native Hawaiian/Pacific Islander^d	37	1.86%	1.58%
	White^d	467	23.53%	26.98%
	Hispanic/Latino	999	50.33%	44.05%
	Other/Multiple^d	144	7.25%	5.62%

^a The sample size in the total and subgroups may differ due to missing data
